

## INSTRUCCIONES DE CAMBIO DE NOMBRE BLUETOOTH PARA WALLMIX

Revisión	Motivo de cambio	Fecha	Aprobado
V1	Creación	2026-01-12	José Ignacio Romanos
V1.1	Revisión alimentación	2026.05.26	José Ignacio R.

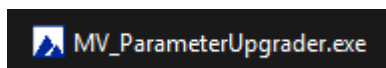

### ES

#### Programa para PC

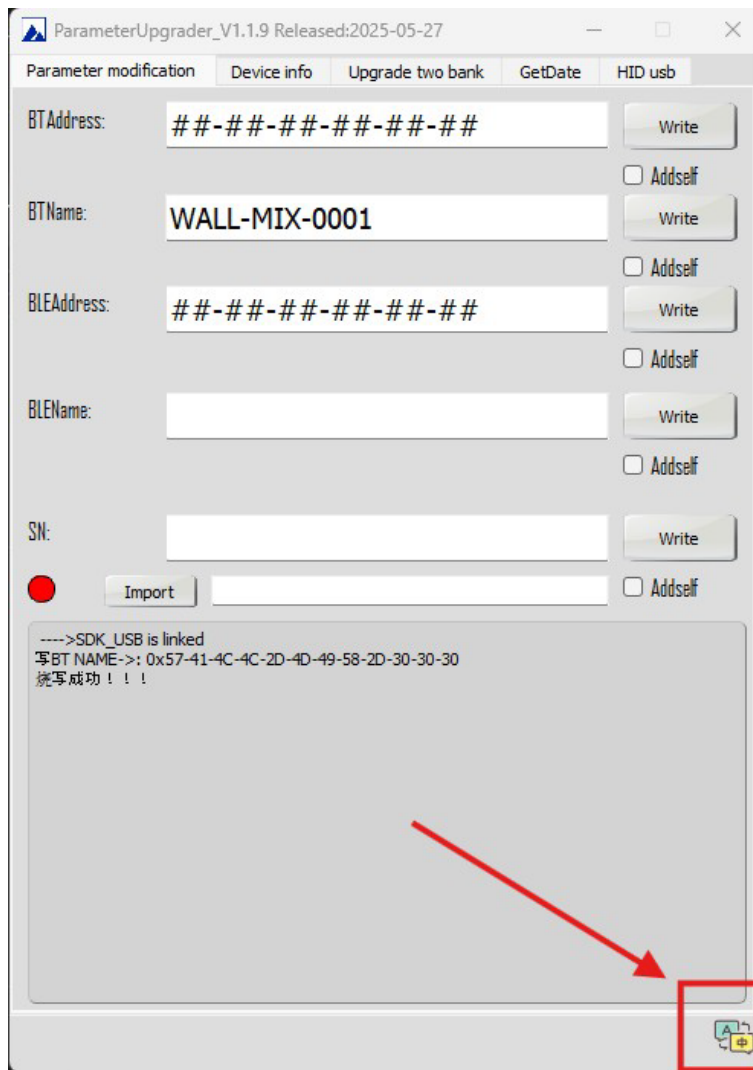

Descomprimir el fichero en una carpeta del PC.

Abrir el programa de actualización "MV\_ParameterUpgrader.es"

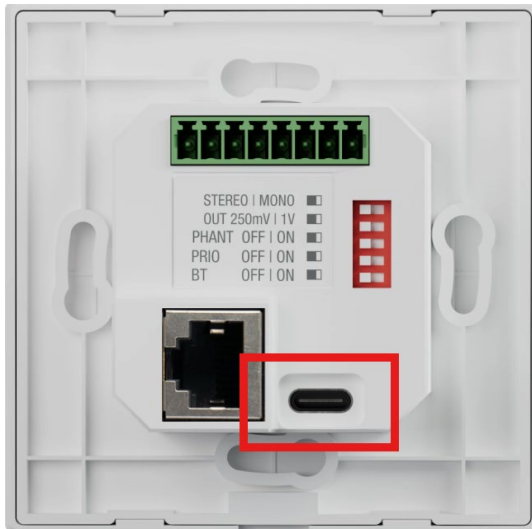

Si es necesario, cambie le idioma a inglés en la opción de la esquina inferior derecha.

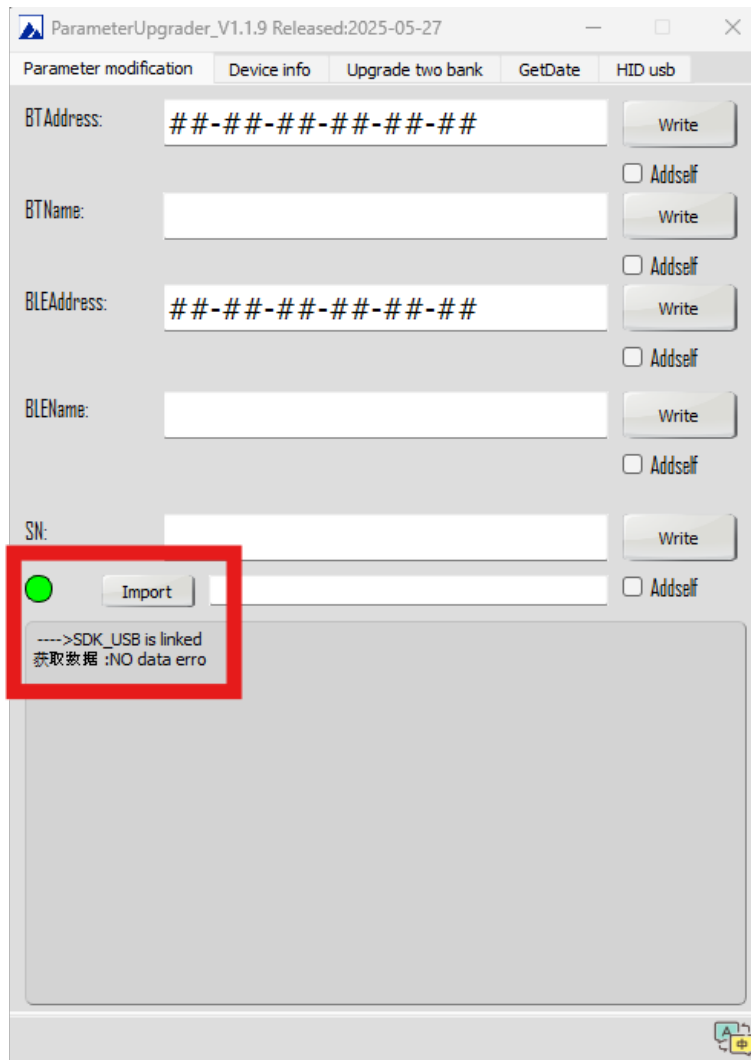

## Conexión WALLMIX a PC

Desconecte la alimentación del WALLMIX desconectando el conector que esté utilizando, euroblock o RJ45

Conecte el WALLMIX al PC a través del puerto USB tipo C del panel posterior. Utilice un cable adecuado.

En el programa de actualización aparecerá el WALMIX como conectado.

## Procedimiento de actualización de nombre BT

Introduzca en nuevo nombre bluetooth en la opción “BT Name”.

The screenshot shows the 'ParameterUpgrader\_V1.1.9' application window. The 'Parameter modification' tab is active. The 'BTName' field is highlighted with a red rectangle and contains the text 'WALL-MIX-0001'. To the right of this field are two buttons: 'Addself' (disabled) and 'Write' (active). Below the 'BTName' field are fields for 'BLEAddress', 'BLEName', and 'SN', each with a 'Write' button. At the bottom left, there is a red circular indicator, an 'Import' button, and another text field. A log window at the bottom displays the following text: '---->SDK\_USB is linked', '写BT NAME->: 0x57-41-4C-2D-4D-49-58-2D-30-30-30', and '烧写成功!!!'. The window title bar indicates the release date as 2025-05-27.

Pulse “Write” para realizar la actualización.

Espera hasta que el proceso concluya. Cuando haya finalizado la actualización puede desconectar el WALLMIX.

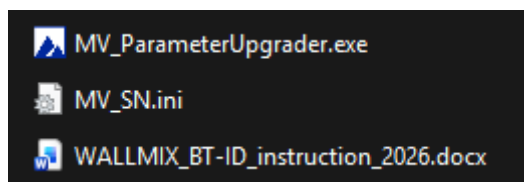

Asegúrese de apagar (desconectar del puerto USB) y encender el WALLMIX para que los cambios tengan efecto.

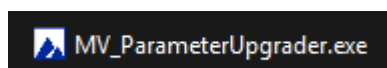

EN

## PC Software

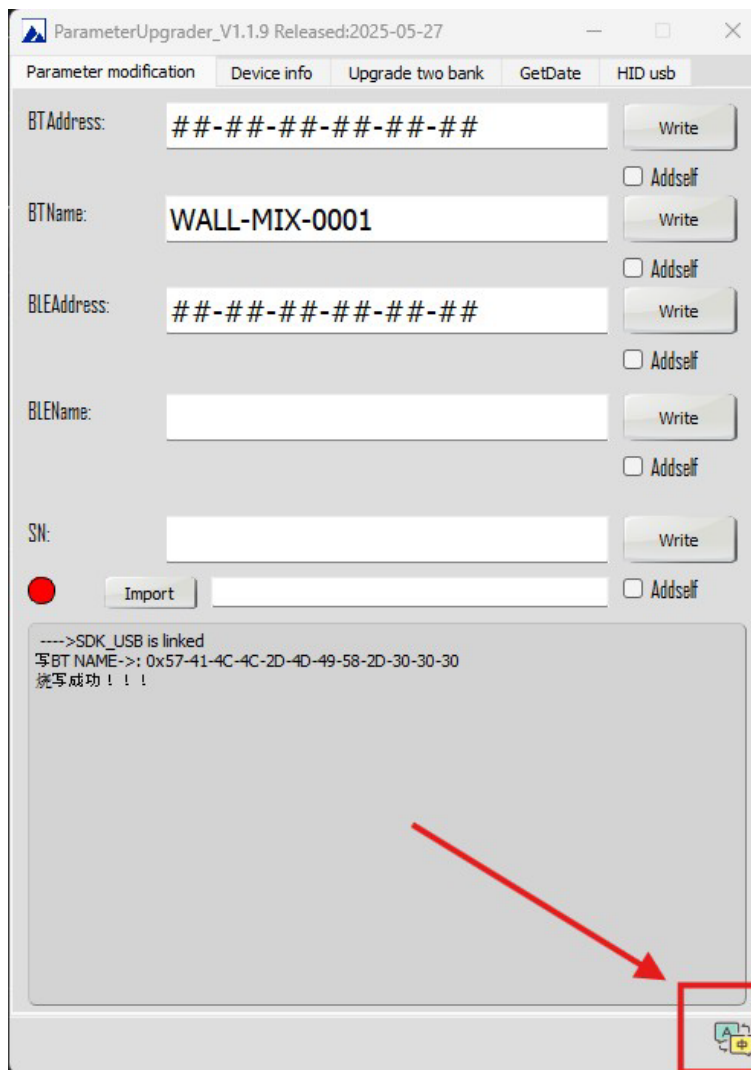

Unzip the file into a folder on your PC.

Open the update program: "MV\_ParameterUpgrader.es"

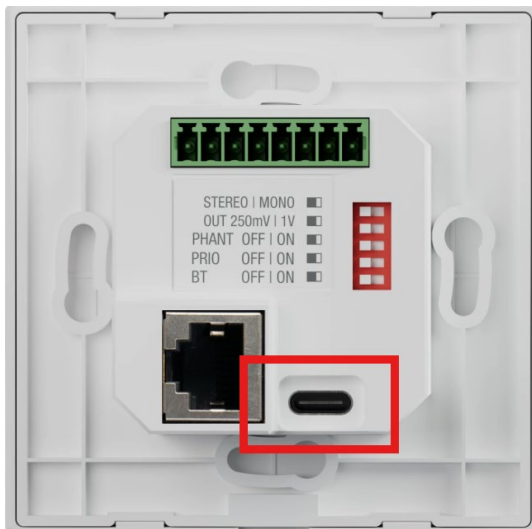

If necessary, change the language to English using the option in the bottom-right corner.

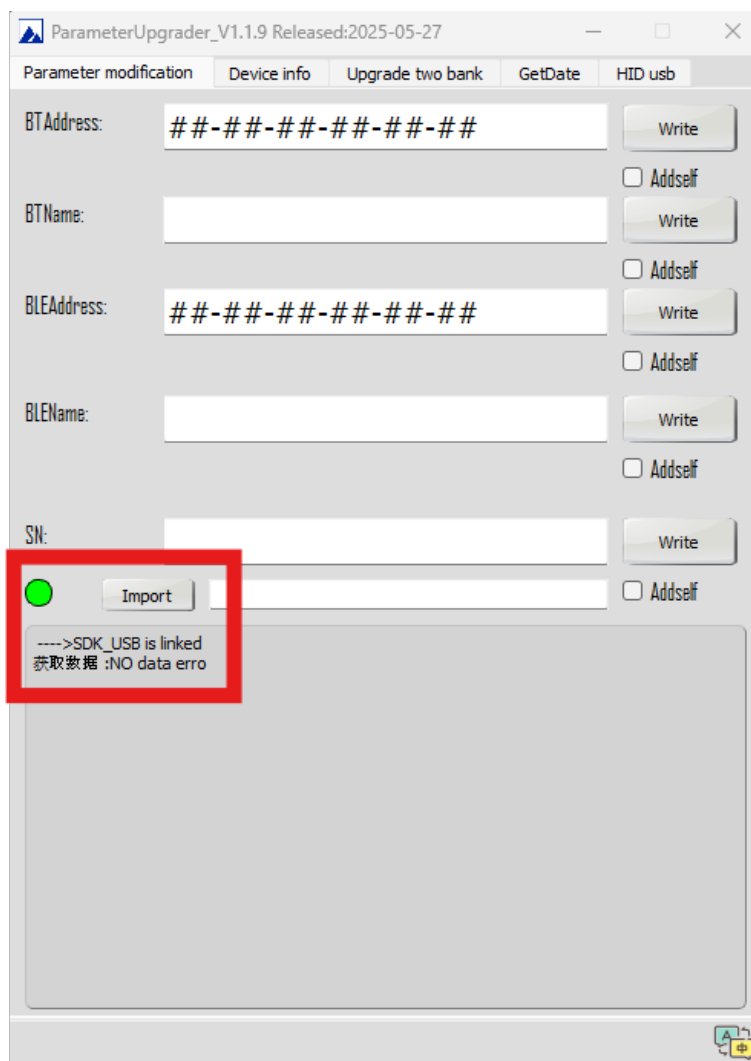

## Connecting WALLMIX to the PC

Disconnect the power supply from the WALLMIX by unplugging whichever connector you are using (Euroblock or RJ45).

Connect the WALLMIX to the PC via the USB Type-C port on the rear panel. Use a suitable cable.

In the update program, the WALLMIX will appear as connected.

## Firmware Update Procedure

Enter the new Bluetooth name in the “BT Name” field.

The screenshot shows the 'ParameterUpgrader\_V1.1.9' application window. The 'Parameter modification' tab is active. The 'BTName' field is highlighted with a red rectangular box and contains the text 'WALL-MIX-0001'. To the right of the 'BTName' field is a 'Write' button and an 'Addself' checkbox. Below the 'BTName' field are fields for 'BLEAddress', 'BLEName', and 'SN', each with a 'Write' button and an 'Addself' checkbox. At the bottom left, there is a red circular button and an 'Import' button. A text box at the bottom displays the following log: '---->SDK\_USB is linked', '写BT NAME->: 0x57-41-4C-4C-2D-4D-49-58-2D-30-30-30', and '烧写成功!!!'. The window title bar indicates the release date as 2025-05-27.

Click “Write” to apply the update.
